AUTOMATED LOCKERS FOR LAPTOP LOANS

iLockerz

INTELLIGENT LOCKER SYSTEMS

Intelligent lockers provide a smart solution for automating access to digital devices, ensuring laptops and iPads are always ready for use.

By installing a system, educational institutions can provide a self-service collection and returns facility which is cost-effective, with the option of full device tracking and reporting capabilities.
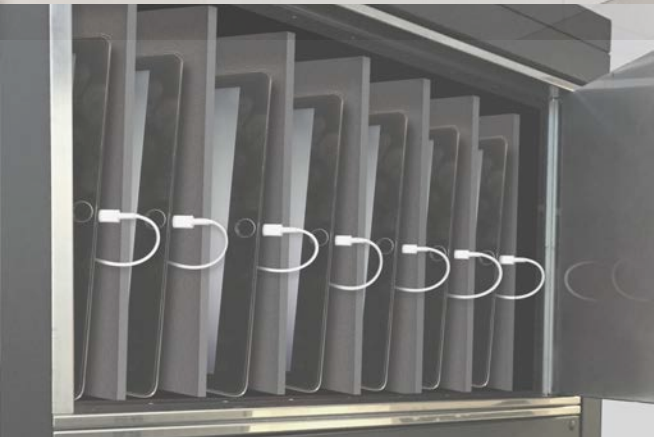

KEY TRACKER

Secure automated lockers for storing and charging:

Laptops
iPads
Electronic tablets
Educational devices
