

# AUTOMATED LOCKER SYSTEMS FOR RADIO MANAGEMENT

*Mr.* iLockerz

## INTELLIGENT LOCKER SYSTEMS

Intelligent lockers provide a smart public safety solution for securely storing shared use equipment and automating access to authorised personnel.

By installing an automated system, emergency services departments can ensure essential communication devices are always ready for use, whilst comprehensive RFID tracking and reporting capabilities offer real-time visibility of items.

**KEY TRACKER**®

**Intelligent lockers for  
securing and  
automating access to  
shared equipment:**

Airwave Radios  
ESN Devices
