January						<small>New Years Day</small>																																<small>Everything is clear, easy to use and set up and the team at Keytracker are very customer focused and nothing is an issue!</small>
February	<small>"Keytracker are absolutely amazing professional, personal and exactly as advertised"</small>																																				<small>"The keys are secure, well organised, the Keytracker board looks well presented"</small>	
March	<small>"It gives us total control of who can access restricted items in the workplace."</small>																																			<small>"The system has saved the team time recording and locating vehicle keys in the fleet"</small>		
April	<small>"The best thing about Keytracker are the lovely people we have arranging our orders."</small>																																			<small>"I just think the system and the service is perfect, can't fault them at all!"</small>		
May	<small>"We like it that much that we've ordered a second one."</small>																																					
June	<small>"We have always used Keytracker, and the ease of use is beneficial to our company."</small>																																			<small>"The best thing about the Keytracker system is accountability"</small>		
July	<small>"The Keytracker system has helped us to save time when looking for keys"</small>																																			<small>"The benefits of Keytracker's systems are the ease of use, security, and speed of location"</small>		
August																																				<small>"We would recommend a Keytracker system to anyone and can't praise Keytracker enough"</small>		
September	<small>"In short the system allows us to do what was not previously possible"</small>																																			<small>"The best thing about the Keytracker system is accountability"</small>		
October	<small>"The Keytracker system pinpoints any missing keys, saves time and saves stress"</small>																																			<small>"The best thing about the Keytracker system is easy visuals to see if a key is missing"</small>		
November	<small>"We no longer have the situation where keys go missing"</small>																																			<small>"It's saved so much time already"</small>		
December	<small>"This allows clear and easy identification"</small>																																			<small>"We are pleased to say since having the system installed we have not needed to replace a single key"</small>
